

Payeer for CMS Amiro 7.0.0.14

Copy the contents of the module in your site root folder (if asked to overwrite files, accept overwriting)

After that, go to admin panel CMS Amiro and in the main menu go to Service -> Payment methods

Open driver settings Payeer.

▲▼	Name ▲▼	Header	Actions
✖	payeer	Payeer	 
✓	yandex_uni_pay_solution	Yandex.Money Payment Solution i	 
✓	webmoney	WebMoney i	 
✓	paypal_express_checkout	PayPal Express Checkout i	 
✓	comepay	Comepay i	 
✓	stub	Stub settings i	 
✓	print	Printing account settings i	 
✓	account	Account settings i	 

In the resulting edit box enter the required parameters.

Configuring driver "Payeer"

[Modified]

Secret key:	1234567
Log order:	/payeer_orders.log
IP filter:	123.*.45.*
Email for error:	info@payeer.com

Apply

Cancel

Merchant URL — the default path to the payment <https://payeer.com/merchant/>

Merchant ID – id of your store in the system Payeer.com (can be found in the personal cabinet).

Secret key – the secret key of your store.

If you specify the path to the file logging, you will be recording information about payments via Payeer.

You can specify the list of all trusted ip addresses of servers, separated by commas. You can also specify a mask instead of the ip address. If the field is empty, checking for trusted ip addresses is not implemented.

For example:

192.168.71.87, 192.165.83.17, 192.178.34.15

Or 192.*.71.87, 192.165.83.*, 192.*.34.15

Or *.*.*.* - all available ip addresses.

Enter your email address to receive notices in the event of an error of payment. The letter will state the reason and basic information about the payment.

Click apply. Then install the module:

▲▼	Name ▲▼	Header	Actions

Open the settings for “E-Commerce: Orders”.

The screenshot shows the 'OPTIONS' settings page for 'E-Commerce: Orders'. At the top, there is a search bar with the text 'Start typing param name...'. Below this is a table with three columns: 'Option', 'Value', and 'Actions'. The table is divided into sections: 'Common options' and 'Allowed payments'. The 'Common options' section includes settings for 'Number of items on page' (10), 'Sort items by column (admin)' (By order date), 'Order direction (admin)' (Descending), 'E-shop administrator's e-mail' (info@mycompany.com), 'E-shop administrator's short messages (SMS) e-mail', and 'Merchant id' (m000000). The 'Allowed payments' section is highlighted in green and contains a list of payment methods: Personal (PayPal Express Checkout, Payeer) and Corporate (Stub settings, Printing account settings, Yandex.Money Payment Solution, PayPal Express Checkout, Payeer). A red arrow points to the 'Edit' button in the 'Allowed payments' section.

Option	Value	Actions
Common options		
Number of items on page	10	0
Sort items by column (admin)	By order date	0
Order direction (admin)	Descending	0
E-shop administrator's e-mail	info@mycompany.com	0
E-shop administrator's short messages (SMS) e-mail		0
Merchant id	m000000	0
Allowed payments		
Personal: <ul style="list-style-type: none">PayPal Express CheckoutPayeer Corporate: <ul style="list-style-type: none">Stub settingsPrinting account settingsYandex.Money Payment SolutionPayPal Express CheckoutPayeer		0

In the allowed payments methods select Payeer.

The screenshot shows the 'Allowed payments' section with two dropdown menus. The 'Personal:' dropdown is open, showing the following options: Yandex.Money Payment Solution, PayPal Express Checkout, Comepay, and Payeer. The 'Corporate:' dropdown is also open, showing the same options. Red arrows point to the 'Payeer' option in both dropdowns.

Personal:
• PayPal Express Checkout
• Payeer
Corporate:
• Stub settings
• Printing account settings
• Yandex.Money Payment Solution
• PayPal Express Checkout
• Payeer

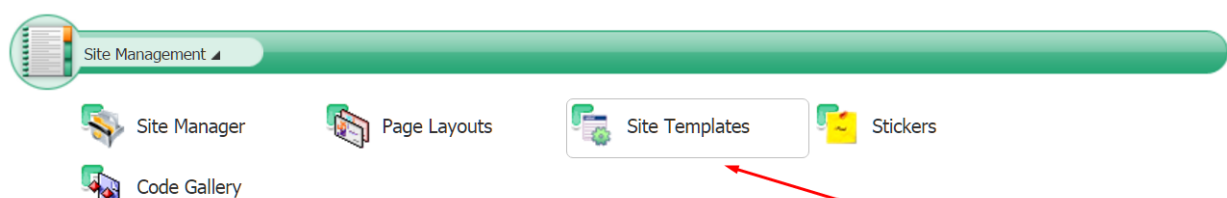

Personal:
Yandex.Money Payment Solution
PayPal Express Checkout
Comepay
Payeer

Corporate:
Yandex.Money Payment Solution
PayPal Express Checkout
Comepay
Payeer

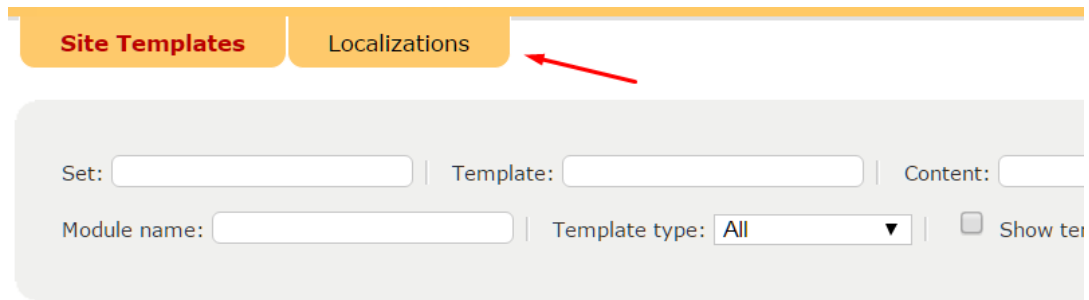

Click “Apply changes”.

In order the payment method appears in the list of available methods, you must add the language setting the name of the payment system Payeer.

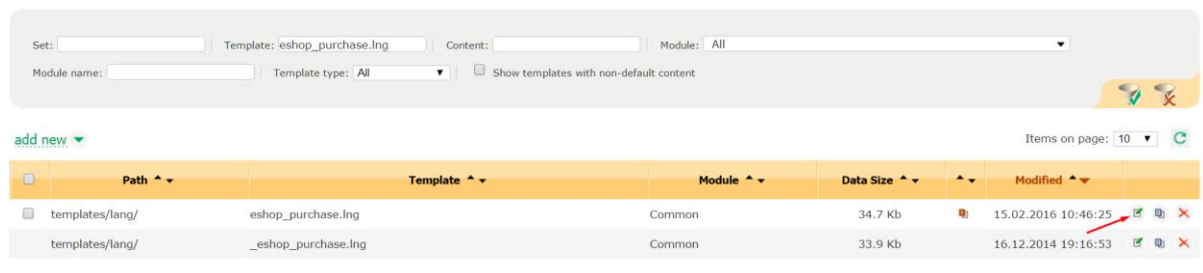

Please visit the main page of the admin panel in “Site Management -> Site Templates”.

Next, go to the tab "Localizations".

Putting in in the filter template eshop_purchase.lng, locate the template and open it for editing.

Path	Template	Module	Data Size	Modified
templates/lang/	eshop_purchase.lng	Common	34.7 Kb	15.02.2016 10:46:25
templates/lang/	_eshop_purchase.lng	Common	33.9 Kb	16.12.2014 19:16:53

At the end add the lines of the description of the payment system Payeer, then press OK.

```
%%pay_with_demo_comment%n%%  
In <a href="http://www.amiro.ru/market" target="_blank">Amiro.Market</a>  
%%pay_with_demo_comment%ru%%  
B <a href="http://www.amiro.ru/market" target="_blank">Амиро.Маркет</a>  
%%pay_with_payeer_option%n%%  
Payeer  
%%pay_with_payeer_option%ru%%  
Payeer
```

The module in the admin panel is configured.

Then, enter the URL address in the “Dashboard Payeer → Merchant → Settings”

Secret key:	Who pays commission:
